

# AN IMPORTANT MESSAGE FROM TYLER MEMORIAL HOSPITAL

As a result of Geisinger Health System's decision to end maternity services at Tyler, we regret that OB services at Tyler will end on September 19, 2008. If you are pregnant and scheduled to give birth at Tyler, please consult with your physician to make alternative birthing plans.

A laboring mother, who believes she can make it safely to her chosen hospital, is **STRONGLY ENCOURAGED** to do so. The safety of mothers and babies is Tyler's priority and delivering in a maternity unit is always preferable. However, Tyler's Emergency Department is always available when needed.

**Other hospitals offering maternity services in our region are:**

**Barnes-Kasson Hospital,  
Susquehanna**
